Character tracing sheets

Every character in the course, in the lesson where it first appears.
For each character: pinyin, stroke order (the newest stroke in red), meaning, and its radical.

How to use the grid:

1. Look at the model in the first box and follow the stroke order above it.
2. Trace over the five grey characters.
3. Write it from memory in the empty boxes.

Say the character out loud each time you write it.
